Product specific terms for Eurocard Corporate

These Product specific terms are supplemented by the General terms for corporate cards and related services (attached hereto). Together they form the Terms and conditions for the product. If there is a discrepancy between the wording of the General terms and these Product specific terms, these Product specific terms shall apply.

A. General Information

The Terms and conditions and the Price list are available on the Website or can be obtained from customer service.

The Website for the Eurocard Corporate product is www.eurocard.com.

B. Card features

The Card may be used wherever Mastercard is accepted and does not have a fixed maximum spending limit.

C. Information on Transactions

The Client shall receive information on completed Transactions monthly electronically or in a paper statement. Transaction information can also be found in the Eurocard App and on My Eurocard on the Website.

D. Contact information for the reporting of loss

In case a Card, Card information, Access code or Personalised security credentials is lost, falls into the hands of a third party or is subject to unauthorised use, the Client and/or Cardholder shall inform the Card issuer by telephone on the following numbers:

Finland: +358 800 1 55 777
Sweden: +46 774 24 24 24
Norway: +47 21 01 50 40
Denmark: +45 70 30 12 01

E. Language versions

These Terms and Conditions are issued in several different languages. If differences occur between the language versions of the Terms and conditions, the English version shall prevail.

F. Communication

The language of communication between the Client, Cardholder and Card issuer shall be either Card issuer's local language or English.

G. Mobile Application

The Client and Cardholder may use My Eurocard on the Website or choose to download the Eurocard-App to view Transactions and get information on the Card.

With the Eurocard-App the Client and Cardholders have full control of their payments and receipts, enabling them to get an overview of the Balance, Transactions and Account statements. The Eurocard-App also supports the ability to scan receipts and save them to respective purchases.

H.   Related services

Additional corporate services can be added to the product.
